

Harold Blehm, Valdez

I am currently privileged to serve on the Board of Directors of KCHU. If approved, I would welcome the opportunity to continue. I do not have access to television, by choice, and do not support commercial radio. Public broadcasting provides all the information and entertainment I could possibly expect. I hope to be able to continue to contribute to the quality and content of our local radio resources, KCHU. I particularly appreciate news and informational programming. I hope to encourage and involve members throughout the broadcast area by turning in and adding their input to the continuing dialog. Though based in Valdez, KCHU belongs to us all, and outreach is an essential component of KCHU's mission. Keep listening and get involved. Thank you!
